## Education

(2018-2022)

PREMIER UNIVERSITY

BSc in CSE

## Skills

### Technical Skills

- React Js
- Mongodb
- JavaScript
- Firebase (Authentication)
- Tailwind CSS
- HTML5

### Soft Skills

- Hard Working
- Team Work
- Quick Learner
- Flexibility

## Projects

### 1. CAR SHOP

E-Commerce **Duration:** 05 Days

- I've crafted the front end with React.js, powered the backend with Node.js, and fortified the authentication layer with Firebase.
- Users can effortlessly view intricate car details and seamlessly add their desired vehicles to the shopping cart.
- An authenticated user can list vehicles on the website, enhancing the overall experience.

### 2. JOB HUNTER

Job Listing **Duration:** 05 Days

- I've meticulously developed the front using React.js, implemented a robust backend with Node.js, and secured the authentication layer with Firebase, complemented by the use of JWT tokens for enhanced security.
- Recruiters can view applicants for their posted jobs, and they can conveniently download candidates' CVs directly from the provided CV links.
- Applicants can easily download a PDF summarizing their applied job details for quick reference.

### 3. DIAGNOSTIC CENTER MANAGEMENT SYSTEM

Management System **Duration:** 10 Days

- I've implemented image upload functionality using ImageBB as part of the login process.
- I've incorporated role functionality, distinguishing between administrators and regular users.
- I've integrated the Stripe payment system for seamless transactions when users book a test.
